

LIVING STONES NURSERY SCHOOL

At Living Stones Nursery School, learning is biblical, fun, dynamic, and well-rounded. Over and above the structured educational programmes that happen in the classroom, we offer a rich variety of extra-curricular activities designed to support the children's development and growth in a joyful, hands-on way. Every day is an adventure in learning and our programme stimulates not only the mind but also the heart, body, and soul - ensuring that every child blossoms in their own unique way.

Shona Lessons

Children are introduced to the beautiful Shona language through stories, songs, games, and basic vocabulary. This helps them embrace and celebrate our local language, connect with their cultural roots and become confident multilingual learners.

Music and Movement

A favourite among our learners! These sessions are full of singing, dancing, clapping, and playing instruments. Music helps children develop rhythm, listening skills, memory, and self-confidence, while movement improves coordination and self-expression.

Ball Skills

From rolling and catching to kicking and aiming, our ball skills sessions are designed to build hand-eye coordination, teamwork, and physical strength—all through play-based learning.

Gym

Our gym activities focus on balance, flexibility, and gross motor skills. Using soft play equipment, obstacle courses, and stretching exercises, children build confidence in their bodies while staying active and having fun.

Science Exploration

Curious minds are engaged through simple, safe, and exciting experiments. From watching seeds grow to exploring magnets or making rain clouds in a jar, children begin to understand how the world works through observation and discovery.

Cooking Classes

Cooking introduces children to early maths and science concepts like measuring and mixing, while also encouraging independence and healthy eating habits. Plus, they love tasting their delicious creations!

SALT (Bible Time)

Spiritual growth is nurtured through weekly Bible stories, prayer, worship songs, and fun memory verses. We focus on teaching values like kindness, honesty, and gratitude in a loving and age-appropriate way.

Messy Play

Children freely explore a world of textures and colours through finger painting, shaving foam, slime, sand, and other materials. It's all about creativity, sensory development, and pure joy!

Water Play

Water play is not only refreshing but educational too! Pouring, scooping, and splashing help children develop fine motor skills, spatial awareness, and cooperative play—especially during those warm summer days.

Field Trips & Educational Outings

Learning is taken outside the classroom with our exciting local field trips! Whether visiting animal sanctuaries, the fire station, a bakery, or a farm, these trips offer real-world connections to classroom themes and promote social interaction and curiosity.

OTHER SPECIAL EVENTS

Our school calendar is full of memorable themed days and events that our learners look forward to each term:

Easter Egg Hunt & Picnic - A fun-filled celebration where children enjoy a festive outdoor egg hunt and picnic with their friends.

Sports Day - A lively day packed with games, races, and team spirit! Children showcase their skills and enjoy friendly competition in a supportive environment.

Dress-Up Days - From Career Day to Book Week Dress-Up, children get to role-play, use their imagination, and build confidence through costumes and themed activities.

Concerts - We have different kinds of concerts, like the Christmas Concert. This is a heart-warming end-of-year celebration where children perform songs and biblical plays for their families.
